CREAM OF NEWS.

The Stanley Case.

After being together for two days, the jury in the Stanley case brought in a verdict late Saturday evening. The circumstances in this case are well known. Harmon Stanley, a mulatto, and Rensie Stanley, a negro, killed Col. Rufus Ebling at the August election in 1886, in Stuart's precinct. Harmon shot Ebling and mortally wounded him and, as he lay dying on the ground, Rensie rushed up and brained him with the butt of his gun. They were tried in 1887 and the jury failed to agree and it afterwards developed that the father of Harmon Stanley, the mulatto, a white man, was on the jury. The next year they were again tried and both of them sentenced to seven years in the penitentiary. This time the jury finds Rensie guilty and he is let off with 2 years, while Harmon is released entirely.

This is a very queer verdict and proves that there is no telling what a petty jury will do. The man who killed Ebling is set free while the accomplices who brained the corpse is found guilty. Harmon was shot in the face during the free fight preceding the murder and the jury may have gone upon the idea that he had already been punished by the suffering he endured from a flesh wound, which left a scar near his nose. The general opinion is that the former verdict was a very light sentence, but the Court of Appeals granted a new trial and the present finding is a travesty on justice.

K. P. Grand Lodge.

At the meeting of Evergreen Lodge, Knights of Pythias last week, two vacancies in the representation to the Grand Lodge were filled by election. The Lodge is entitled to three representatives and D. G. Wiley, Chas. M. Meacham and A. H. Clark were selected. The Grand Lodge meets in Owensboro to-day. D. G. Wiley and Past Grand Chancellor Abernethy left yesterday morning for Owensboro. Business of a pressing nature will prevent the other representatives from attending.

Probably Fatally Injured.

Mrs. Amy Weather, one of the oldest ladies in the county, who lives near Kirkmansville, is now very low and not likely to live more than a few days, owing to injuries sustained by a recent fall. She has been quite feeble for some time and a few days ago while trying to close the door of her room fell and sustained severe bruises, which threaten to result in gangrene. She is 87 years of age and lives with her son, F. M. Weather.

The assistant station boss at Crofton was robbed of his pocket book containing \$15 in cash and valuable papers, Wednesday night. A warrant is out for the arrest of the party suspected of having committed the theft.

Messrs. Nantz & Neuner, the Louisville florists, are out with a handsome catalogue of fruits and flowers for fall planting. This is an old and thoroughly reliable house and does a large business in this section. Send to them for a free catalogue.

Statistics show that only 90 white children are attending school in Cecil, while there are 152 colored pupils in daily attendance at the two colored schools in the corporate limits. The white patrons on this score will have to do better than they now are, or else accept that quality begets quantity—Telephone.

Some complaints have come to us of the stealing of papers left at the store doors before stores are opened. Our carriers deliver their entire lists before breakfast and before many subscribers are out of bed. If there are further complaints the papers of those whose doors will not permit the paper to be pushed underneath them will be taken out and delivered later in the day, if subscribers will notify us.

Another case of diphtheria, a child of Minerva Ferguson, col., on West Seventh Street, resulted fatally Friday morning, making the fourth death. The three cases reported Friday are all doing well. There have been rumors of other cases, one a child in the first grade of the white public school, but all of them lack confirmation. As yet there is no danger of an epidemic. Elsewhere will be seen a communication from the Board of Health.

Judge F. H. Brisdow received from Assistant Secretary of State, Willis L. Ringo yesterday, papers giving the information that Gov. S. B. Buckner had remitted all of Joe Linebaugh's fines except sufficient to confine him in jail six months. He has already served four of that six, and the Governor gives him a respite until after the November term of court, after which Linebaugh can return to jail—if it is his wish. The sum total of fines remitted is \$4,375. Linebaugh breathes free air again to-day and will likely leave for Guthrie on the first train—Elderton Progress.

On to-morrow Sells Brothers' enormous show, in coalition with S. H. Barrett's World's Fair, will be here. It is veritably Oses piled on Pelion. Two big shows, either of which is the peer of any other travelling exhibition; two big parades the same hour and place; two big hippodromes; two big menageries; two big circuses; two big railway trains in one place on the same day, and both exhibits within the same enclosure at one admission fee and that only the same as any of the minor shows charge, will without doubt bring the biggest crowd of people ever seen here.

HIDE AND SEEK.

WM. T. BRAME VENTURES INTO THE CITY FRIDAY MORNING.

His Horse Found and His Discarded Clothes Captured.

Believed to be Still Hiding Near Town. Bloodhounds Arrive.

Interest in the Brame matter has been increasing every day since Friday and excitement is now at fever heat.

Thursday Brame was seen near Allensville on a gray horse, which he confiscated near Greenbrier, Tenn.

Friday morning about day he was seen in this city and it is said he was harbored by one of his friends.

Friday night a posse who were on a hot trail found the stolen horse at or near the Dick Moss place, east of town, and also captured a suit of clothes discarded by Brame. These were brought to town and a large posse of local and imported officers and detectives made an all-day search for him and Saturday afternoon the excitement was increased by the arrest of W. H. Merritt, charged by Detective Laird with aiding Brame to escape. His trial was set for yesterday, but nothing came of it.

There are all sorts of rumors, one is that Brame is still hiding close by and will, when the rewards are all offered, allow himself to be captured by a friend and get the money to conduct his defense.

Another is that he has left here, having been supplied with arms, ammunition and money and that he is clear out of reach by this time.

The most probable theory is that he is being sheltered by sympathizers. Two bloodhounds were received yesterday and if the fugitive is still in this vicinity he will certainly be hunted down.

Some practical joker wrote on the KENTUCKIAN bulletin late Sunday afternoon that Martin Davis had been killed in a desperate fight with Brame, which had the city terribly excited in five minutes. Mr. Davis was kept up till 11 o'clock answering calls from friends who came to learn the particulars.

This hoax was perpetrated without the knowledge or approval of the KENTUCKIAN, which bulletins nothing but reliable news.

Brame's friends are telling that Lemon kicked him off the train and some sympathy has been worked up for the murderer. There are no less than a dozen witnesses who saw the difficulty from first to last who will testify that Brame was neither struck nor kicked. One of these is Cave Johnson, the brakeman, who had hold of him and helped to put him off.

The Board of Health Acts.

We, the Board of Health of Christian County, in view of the fact that diphtheria has made its appearance in the city, do suggest the following precautions. First: Patients effected with this disease should as far as possible, be excluded from every one except physicians and nurses. Second: Any one who is compelled to come in contact with a case of diphtheria should disinfect himself before going among other persons, and by all means avoid going where there are children until he has made a complete change of his apparel. Third: Every one living in the city, or in infected districts, should thoroughly disinfect their premises, burning or burying all possible sources of infection and using lime freely. Care should be taken that the water used for drinking contains no harmful impurities. Fourth: The interiors of those dyed with this disease must be absolutely private, no one being present except those who are necessary to perform the ceremony and it must take place as soon as possible after death.

Signed, F. M. STITES, Sec. By order of the Board of Health.

IS HE IN OR OUT?

A Question, Raised as to Judge Brasher's Right to Hold a City Office.

Considerable talk has been indulged in the last day or two in regard to the eligibility of City Judge J. C. Brasher, yesterday H. L. Boales, who had been arrested Saturday, declined to be tried by Judge Brasher on the ground that he had forfeited his office by moving out of the city. Judge Brasher thereupon continued the case until to-morrow.

Some time ago Judge Brasher bought a lot at the city limits on Seventh street and build a residence upon it. He had the boundary line surveyed by S. C. Younglove and located his house, as he claims, on the line most of it inside. Some six weeks ago he moved out to this house.

Saturday another survey was made by Messrs. Twyman and Townes, and according to their line, the house is outside the city, excepting about two feet of one corner.

If Judge Brasher has moved his residence out of the city he has of course forfeited his office, but to settle the boundary question the Council would have to have a survey made.

Judge Brasher says his new house is in the city limits, but that he was only temporarily occupying the house during the heated term. He moved back to his former residence yesterday.

Dr. Darby will formally dedicate the new Cumberland Presbyterian church at Pembroke next Sunday at 11 a. m. Dinner on the ground for all.

If you have sick and nervous headache, take Ayer's Cathartic Pills. They cleanse the stomach, restore healthy action to the digestive organs, remove effete matter (the presence of which depresses the nerves and brain), and thus gives speedy relief.

Reading a tonic, or children that want building up, should take BROWNE'S IRON BITTERS. It is pleasant to take, cures Malaria, Indigestion, and Biliousness. All dealers keep it.

I want to sell my farm, lying two miles and a half northeast of Mayfield, Graves Co., Ky. The tract contains 18 acres of good land, 10 acres of cultivation, half of that in clover and grass; enough to drain trees. The land is just rolling, the balance in timber. The land is well improved, in a high state of cultivation and is one of the best farms in the county. It has 200 yards of plank fence, a half mile of wire fence, and the balance good rail fence. There are in one of these orchards of good fruit every kind. The dwelling house is a two-story frame building, with an L at the rear. It is 16 by 18 feet making four front rooms and two back. A veranda 18 feet wide is situated in front and the L has a side porch—a very convenient and airy house. A brick mud-house and all other necessary buildings. The residence is located in forest growth, has good pasture, good churches and schools are in the neighborhood.

Mayfield, the county seat of Graves county, is two and a half miles from this farm. Come along soon and look at the farm or you may regret it. I am going to sell. Price \$25 per acre; two-thirds down and the balance to suit purchaser. For any information desired write to the undersigned at Mayfield, Ky. Aug. 27-28
